What's different when collecting money (or resources)?

Crowdfunding in ancient Greece!

The **Theatre of Ancient Greece**, or **Ancient Greek drama**, is a theatrical culture that flourished in ancient Greece 700 BC. The city-state of Athens, which became a significant cultural, political, and military power during this period, was its centre, where it was institutionalised as part of a festival called the Dionysia.

Match funding concept

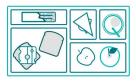

Matchfunding, where institutional funding is matched with crowdfunding on an online platform is attracting increasing amounts of interest from public and philanthropic funders interested in understanding if a match fund can make public grant money go further, get more people involved in developing and supporting projects and use the knowledge of 'the crowd' to test public demand for projects.

The act4greece program

- The act4Greece program is a pioneering initiative for the promotion of social and developmental banking.
- For the first time in Greece, an online platform has been created which enables the gathering of resources from the "crowd" – from anyone interested, wherever they may be in the world. The resources are then directed to specific projects undertaken by implementing bodies
- The program covers projects falling within 7 action areas: 1)
 Welfare, Health and Solidarity, 2) Social Economy and
 Entrepreneurship, 3) Culture and Cultural Entrepreneurship,
 4) Young and Innovative Entrepreneurship, 5) Environment
 and Sustainability, 6) Research, Education and Training, and
 7) Sporting Activities.

The act4greece program

- The various act4Greece actions are being implemented by bodies with a solid track record in such activity, through the program's website www.act4Greece.gr, by leveraging the potential of the crowdfunding financing model.
- The funds raising through the act4Greece are donations, and in the future – as soon as the appropriate institutional framework has been put in place – they will be also raised through
 - lending (especially small loans)
 - equity participation, by supporting innovative business start-ups.

Each contribution via the act4Greece is a kind of donation. Current tax legislation provides for a 10% tax break on a donation made by salaried employees and pensioners. Non Greece residents who make donations are subject to the legislation of their place of tax residence. More information on https://www.nbg.gr/act4greece/fag-2/

Together we succeeded: The campaign to support the Art Theatre – Karolos Koun has successfully achieved its target

"Alone we are as nothing... Together, however, we may be able to achieve something". These are the words of Karolos Koun, the original inspirer and founder of the Art Theatre: "together" all of you who donated to our project have enabled it to come true, and – what is more – far sooner than was originally scheduled for the crowdfunding campaign.

On 16 March 2016 the fourth in the series of actions hosted by the digital act4Greece platform was presented, in the hope of collecting over the course of the following three months €108,176 in order to cover the urgent need for repairs and renovation of the theatre facilities at the two venues of the historic Art Theatre - Karolos Koun, at the "Underground" stage at 5 Pesmazoglou Street, Athens and the stage at 14 Frynichos Street, Plaka. With the support of all of you, and in particular the very generous contribution of the Onassis Foundation, we
